

Implementation Document

EMR - PA

Developer Manual

Prerequisites:

Please download the following:

- node.js
- npm (Python library)
- Git
- Docker Desktop (ensure installation before running database)

Connect to Local Repository:

Run “**git init**” locally, then enter the following commands in your terminal:

- git clone
<https://github.com/jeannamatthews-classes/group-project-emr-pa.git>
- cd emr-pa
- npm install

Hosting:

The following ports are used for the frontend, backend, and database:

- Frontend: <http://localhost:5173/>
- Backend: <http://localhost:5000/>
- Postgres (database): localhost:5432

Start Up Project:

Enter the following commands in your terminal / complete these steps:

- Run “**npm run db:up**”
 - This starts the Postgres container

- When to do this: beginning a new session & when the database is already running
 - You can use **npm run db:down**, and **npm run db:reset** as well.
- Create a **.env** file in **apps/backend** and copy the contents of **.env.templates** into it
 - When to do this: initial setup or when environment variables are changed
 - .env should never be pushed to GitHub; only push the template
- Navigate to **apps/backend**
- Run “**npx prisma generate**”
 - When to do this: initial setup & after schema changes
- Run “**npm run prisma:migrate**”:
 - When to do this: initial setup & whenever new migrations exist
- If you want to see your database run “**npm run prisma:studio**”
- Navigate back to **root** (../..)
- Run “**npm run dev:frontend**” to start the frontend
- In a second terminal, run “**npm run dev:backend**” to start the backend
- Keep both terminals running while developing
- Backend Health: <http://localhost:5000/health>
- DB connection: <http://localhost:5000/api/db-test>

User Manual

Student Manual:

1. Click on the link
2. Create an account
 - a. Log in with your Clarkson email
 - b. Enter an original password
3. Wait to be assigned a role by an administrator
4. Get directed to the student view
5. Explore!

Faculty Manual:

1. 1Click on the link
2. Create an account
 - a. Log in with your Clarkson email
 - b. Enter an original password
3. Wait to be assigned a role by an administrator
4. Get directed to the faculty view
5. Explore!

Admin Manual:

1. Click on the link
2. Create an account
 - a. Log in with your Clarkson email
 - b. Enter an original password
3. You will be assigned a role by an administrator
4. Get directed to the admin view
